

THEATRICAL

**PR 20W** is a super small 30 cm LED profile powered by 20 watts Warm white COB LED. Featuring a fixed Lens of 19°, 26°, 36° or 50°, it delivers a crisp projection and even field with a high CRI of 92. Optional Fresnel lenses are available to get a wash effect from the same LED engine as well as DMX and Power track adapter. This LED Profile can be best deployed in museums, art galleries, exhibitions, and retailer shops.

**SOURCE** Light source: 20 watts Warm white LED  
Color temperature: 3200 K  
LED life expectancy: 50,000 Hrs

**OPTICAL SYSTEM** Fixed lens: 19°, 26°, 36° or 50°  
Optional Fresnel lenses

**PHOTOMETRICS** CRI (Color Rendering Index): >92  
TM-30 Rf (IES TM-30-15 Fidelity Index): >94  
TM-30 Rg (IES TM-30-15 Gamut Index): >102  
TLCI (Television Lighting Consistency Index): >97

**KEY FEATURES** 2 Dimmer curves  
Strobe  
Video flicker free  
Silent operation

**CONTROL & PROGRAMMING** Control protocols: Rotary, DMX  
Control channels: 1, 3 CHs

**ELECTRICAL** Input voltage: AC100-240V/50-60Hz  
Output: 20-42V /600mA DC

**CONNECTIONS** DMX connections: 3 pin XLR In/Out male and female  
Power connections: 30-42V/600mA adaptor

**PHYSICAL** Dimensions: 295 x 130 x 120mm  
Net weight: 1.3 Kg  
Color: Black  
Housing: Aluminum  
IP rating: 20  
Operation temperature: -5°C/45°C
