

**PR 350S** is 6 colors 350 watts RGBAYC LED Profile. With additional Amber, Lime and Cyan on top of the traditional RGB, the LED source engine can cover a bigger spectrum in color output and allow a high and precise level of control over the final look and color rendering. An optional high performance Fresnel lens with barn doors can replace the profile lens offering an even Fresnel wash from the same LED engine. This LED Profile offers high flexibility and variety in output becoming the ideal choice for mood scenes in theatres and camera setups in studios.
