

STROBE 1200 is a high-power LED strobe packed with 297 x 3 watts RGB LEDs. Along the strobing effects it also creates a wash effect with a wide beam angle of 120°. The strobe effect speed and duration can be controlled for a variety of bright flashing effects. It's the perfect choice of RGB strobe fixture for clubs, stages and events.

SOURCE Light source: 297 x 3 watts RGB LEDs
LED life expectancy: 50,000 Hrs.

OPTICAL SYSTEM Beam angle: 120°

DYNAMIC EFFECTS Dimmer: Linear adjustment
Color mixing: RGBW
Variable strobe effect
Built-in color and dynamic macros

CONTROL & PROGRAMMING Control protocols: DMX
Display: LED display
DMX channels: 1, 2, 3, 4, 6, 7 CHs

ELECTRICAL Input voltage: AC100-240V/50-60Hz
Power consumption: 1210 watts

CONNECTIONS DMX connections: 3 pin XLR In/Out male and female
Power connections: Power Cable input

PHYSICAL Dimensions: 483 x 248 x 145mm
Net weight: 8 Kg
Color: Black
IP rating: 20
Operating temperature: 0°C/45°C
